 - 17.00 Closure & drinks
-

The EyeOn Analytics in Demand Planning benchmark shows limited use of additional data sources today!

Usage of data sources (1 - 10 scale, N= 25)

Building the data driven supply chain: How to make it work?

-  Start collecting and storing data as of tomorrow
-  Build strong analytical skills – often centrally organized
-  Do not make analytics a stand-alone exercise – embed in process
-  Develop fact-based collaboration & communication – planner as orchestrator
