

Official press release

EyeOn bv moves to Eindhoven

Eindhoven, April 26, 2022 – EyeOn relocates their Dutch office from Aarle-Rixtel to Eindhoven, the Netherlands. From May 1, the forecasting and planning consultancy will be situated in the center of Eindhoven.

As reason for the move EyeOn states their rapid growth in the number of employees, creating the need for bigger offices, as well as better accessibility for both customers and employees from their international teams. The new office is located within a five-minute walk from the central station of Eindhoven, making it easily reachable by train and airplane.

Another reason why Eindhoven is an ideal location for EyeOn is its reputation as Europe's most innovative technology region. Thanks to the unique high-tech expertise and the close cooperation between industry, educational and knowledge institutes, and public authorities, 'Brainport Eindhoven' has developed into an economic core region where innovative technologies are being developed that create tomorrow's society.

"At EyeOn we believe in constantly innovating and working on the edge of what's possible to get our customers years ahead. What better place to do this than Eindhoven?" - André Vriens, Managing partner at EyeOn

The address of EyeOn's new office is:

Vestdijk 53
5611 CA Eindhoven
The Netherlands

Next to that the company has offices in Belgium, Switzerland, Ireland, Germany, and the US. Learn more at eyeonplanning.com
